

An Invaluable Resource for Trends & Analysis

21st ANNUAL REPORT AND SURVEY OF BIOPHARMACEUTICAL MANUFACTURING

500+ pages of data-rich analysis to help improve your decision making in biomanufacturing. In-depth analysis of capacity, production trends, benchmarks, and more!

2024 21st Annual Report and Survey of Biopharmaceutical Manufacturing Capacity and Production is a comprehensive analysis of trends and opportunities, biotherapeutic developers and contract manufacturing organizations' current and projected future capacity and production. Case studies summarize and highlight specific issues affecting the industry, with an overview of the situation, and a discussion summary.

The BioPlan Annual Report and Survey is and has always been a must read, as it is the most comprehensive survey and result analysis to determine trends, requirements and new demand of the biopharmaceutical industry.

–Maik Jornitz, President, G-Con, LLC

- 200+ Biopharma company responses
- 170+ industry vendors and suppliers
- 23 Countries represented
- 500+ Pages
- 12 Chapters
- 200+ Graphs and 20+ Tables
- Subject Matter Expert analysis
- Independent Sponsoring Organizations

One Research Court, Ste. 450 Rockville, MD 20850

OUR REPORT OFFERS:

- **In-depth analysis:** 500+ pages of data-rich analysis to enhance decision-making in biomanufacturing operations
- **Industry trends:** Insights from 220 biopharma respondents and 179 suppliers, representing 23 countries
- **Subject Matter Experts:** Additional external analysis on trends and future growth
- Capacity and production trends
- Budget Trends and economic impact
- Downstream purification and industry bottlenecks
- Capacity utilization and production levels
- Outsourcing trends and international offshoring
- Disposables and single-use systems
- Batch failure rates and quality management
- Hiring and employment growth
- Supplier growth rates and more

TABLE OF CONTENTS

| | |
|--------------------|--|
| CHAPTER 0: | Demographics |
| CHAPTER 1: | Introduction and Discussion |
| CHAPTER 2: | Overview of Critical Issues in Bioprocessing |
| CHAPTER 3: | Emerging Issues in Biopharmaceutical Manufacturing |
| CHAPTER 4: | Capacity Utilization |
| CHAPTER 5: | Current and Future Capacity Constraints |
| CHAPTER 6: | Future Capacity Expansions |
| CHAPTER 7: | Outsourcing Trends in Biopharmaceutical Manufacturing |
| CHAPTER 8: | Disposables and Single-Use Systems in Biopharmaceutical Manufacturing |
| CHAPTER 9: | Downstream Purification |
| CHAPTER 10: | Hiring, Employment Growth and Training in Biopharmaceutical Manufacturing |
| CHAPTER 11: | New Methods, Continuous and Process Intensification, Cell and Gene Therapy |
| CHAPTER 12: | Suppliers to Biopharmaceutical Manufacturing and Life Sciences |

“Your report has delivered significant value to us. We use it as a fundamental part of the research for our strategic planning. This report has helped us see market shifts, such as the predicted increase in needs for biotech-focused CMO’s that we used to position our company to better serve our clients. We consider this a must-have report to keep our business focused in the right direction.”

–**Jeff Hargroves, President, ProPharma Group**

“BioPlan Associates Annual Reports are a valuable independent resource for monitoring drug manufacturing activities, trends and future needs.”

–**Jerold Martin, Global Industry Consultant, Former VP Pall Life Sciences**

“I have found each BioPlan Associates “Annual Report and Survey of Biopharmaceutical Manufacturing Capacity and Production” to be particularly useful in my work. As managing editor for BioProcessing Journal, I refer to my print copies of the biomanufacturing survey reports regularly when recruiting and editing manuscripts. They are valuable components of my journal production ‘toolkit.’”

–**Marci J. Brown, Managing Editor, BioProcessing Journal**
